PROFILE

Dynamic and experienced front-end developer specializing in high-quality web and mobile solutions using Angular and React Native. Recognized for technical expertise, effective communication, and a collaborative mindset. Passionate about building scalable applications, optimizing performance, and mentoring teams.

.....

WORK EXPERIENCE

Foodtec Solutions Inc.

2020-Present

Front-End - Mobile Tech Lead

- Angular
 - Led the development of a high-traffic Angular-based client application, modernizing the company's core product.
 - Provided technical leadership, mentoring junior engineers on best practices in front-end development and software engineering.
 - Conducted technical interviews, assessing candidate skills and cultural fit to expand the development team.
 - Designed and maintained client-facing web applications with a focus on cross-browser compatibility and accessibility standards.
 - Implemented performance optimizations such as code splitting, lazy loading, and caching, enhancing user experience and reducing load times.
- React Native Tech Lead
 - Architected a React Native framework enabling the generation of fully customizable loyalty mobile apps for multiple clients, reducing production time by 80% while maintaining a single codebase.
 - Led a team of developers and testers in building reusable UI components, ensuring design consistency across multiple projects.
 - Collaborated closely with UX/UI designers and backend engineers to translate designs into responsive, high-performance components.
 - Conducted code reviews and provided mentorship, fostering a culture of continuous learning and code quality improvement.
 - Integrated Fastlane for automated app deployment and contributed to GitLab CI/CD pipelines to streamline the release process.
 - Managed and maintained a template app for multiple customers, transitioning from Titanium SDK to React Native.
 - Experienced in manual app releases on both Google Play Store and Apple App Store.
 - Hands-on expertise with the Firebase suite (Push Notifications, Google Analytics, Firestore DB).
